

ROHAN PLANTE

Computer Science Student at Marist University

Middleton, MA • rohanplante@gmail.com • (978) 239-9588 • linkedin.com/in/rohan-plante

EDUCATION

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

Marist University

GPA: 3.67 / 4.0 - Dean's list (all semesters)

Coursework: Software Systems Analysis, Software Development (I/II), Discrete Math, Database Management, Data Communications

INFORMATION TECHNOLOGY SERVICES

Essex North Shore Agricultural & Technical School

GPA: 4.48 / 5.0 - Academic High Honors

- 1,500+ hours in IT coursework (hardware, software, networking, Linux, cybersecurity, robotics, data science)

SKILLS

Python, Java, SQL, HTML/CSS/JavaScript, Flask, OpenCV, Pandas, Git, Tableau, PowerBI, VSCode, RPi, LiDAR, VMWare/VirtualBox, Wireshark, Autopsy, Packet Tracer, Microsoft/Libre Office, Windows, Linux, Troubleshooting, Project Management, Leadership

In progress: C, R, Rust

RELEVANT EXPERIENCE

DATA ANALYST ASSISTANT

Office of Community and Belonging, Marist University

- Collect, organize, and analyze quantitative & qualitative campus data to identify trends & make insights
- Prepare reports and visualizations to help guide university leadership
- Design, update, and maintain internal databases and dashboards

WEB DEVELOPER (INTERNSHIP)

Essex North Shore Agricultural & Technical School

- Built prototype web pages integrating Google Sheets API with school website to create responsive curriculum maps
- Automated Google Forms to Google Docs workflows, improving faculty efficiency
- Presented prototypes to school committee, administrators, and faculty

KITCHEN MANAGEMENT SUITE: SOFTWARE DEVELOPMENT II PROJECT

- Developing a full stack kitchen management application using Flask, PostgreSQL, and a custom JavaScript framework
- Designed a normalized relational database from scratch, supporting multi-household recipe and pantry management
- Created a script to fully populate the database with realistic users, groups, items, and recipes for testing & development purposes
- Implemented recipe creation and recommendation, as well as role-based access control and household membership systems

RAVEN-V: AUTONOMOUS SELF-DRIVING CAR

- Designed and built a fully functional prototype integrating LiDAR, computer vision, and machine learning
- Achieved real-time navigation and object detection

MCWSTARZ BASKETBALL CLUB WEBSITE

- Developed secure, mobile-friendly website with integrated social media feeds
- Delivered responsive design improving accessibility and engagement
- Ensured that website frontend and backend were documented and well thought out for easy maintenance in the future

FUTURE LEADER & SUPERVISOR

Essex Heritage

- Promoted to Supervisor (2025); lead peer workers in historic preservation and site management alongside Park Rangers
- Assisted museum curator with archival care and collections management
- Collaborated on carpentry, blacksmithing, fence building, and landscaping projects

AWARDS & ACHIEVEMENTS

Eagle Scout Class of 2023

- Bernard Harris STEM Supernova Award (2021)
- Order of the Arrow Inductee (2021)
- Earned three Silver Palms

Eagle Scout Project – King Pines Trail (Middleton, MA) (2021 – 2023)

- Directed creation of a hiking trail and 40-ft elevated boardwalk on conservation land
- Coordinated 400+ volunteer hours, managed logistics, funding, and approvals
- Trail now featured on AllTrails with a 4.1-star community rating

Technical & Academic

- 2024 Massachusetts Association of Vocational Administrators Outstanding Vocational Technical Student for Essex Tech
- National Cyber League (Fall 2022): Placed 369 of 3,926 teams; 1,137 of 6,679 individuals
- UMass Lowell GenCyber Program (2022): 1st place out of 40 participants in cybersecurity CTF
